Customer Problem Statement Template:

Construct a challenge definition to comprehend issues from the user's standpoint. This framework assists in prioritizing meaningful improvements to create digital interactions that people find valuable.

A precisely defined problem statement helps project teams identify optimal solutions for hurdles encountered by users. By engaging in this process, you can build empathy with the consumer, leading to a deeper understanding of their product expectations.

I am	An active digital consumer or an enterprise web administrator.
I'm trying to	Locate items rapidly or coordinate online warehouse logistics.
but	Legacy applications are clunky and hard to browse efficiently.
because	The software lacks a streamlined, cloud-native MERN foundation.
which makes me feel	Stressed and likely to abandon the intended transaction.

Example Entry:

[I am: A Parent] [Trying to: Buy kids clothes] [But: The site crashes] [Because: It is not scalable] [Feel: Annoyed]

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Mobile-first shopper	Browse and search for new boutique arrivals	Product filters are frozen on smartphone screens	The web view is not optimized for handheld browsers	Annoyed and discouraged
PS-2	Store Inventory Manager	Modify catalog stock amounts every day	Updating individual items takes an hour	The admin panel lacks batch update tools	Inefficient and exhausted
